

Select performance windows

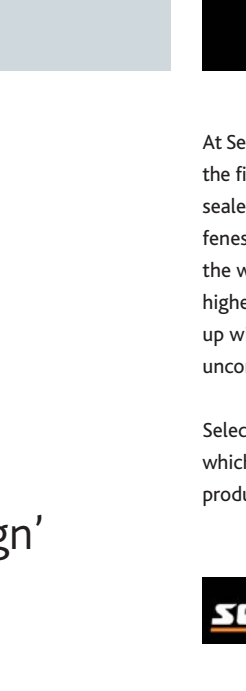

THE CHOICE for windows & doors

true security combined with beauty

The high specification solution for residential developments, schools, office blocks, hospitals & factories. Security, style and finish.

- High Performance 70mm Profile
- BSI Tested
- High Thermal Efficiency
- Comprehensive Range of Finishes
- Police-Approved 'Secured by Design'
- Low Maintenance and Durable

At Select we have long recognised that producing the finest range of superior PVC-U products and sealed units is simply not enough. Today's fenestration specialists and end users demand the widest choice, the finest quality and the highest standards of customer service, backed up with reliable delivery schedules and uncompromising product guarantees.

Select provide all of these things as standard, which means you can specify and install Select products with complete confidence.

THE PROFILE22 70mm systems are perfect replacements for old timber frames, or inferior quality PVC-U and aluminium windows. Their attractive PVC-U profiles in both traditional or modern styling incorporate a discreet Bubblex gasket for superb weather performance with-standing wind, rain and extreme temperatures.

It's warmer too! The unique four chamber system gives improved thermal efficiency.

Together with Securistyle high security hardware our products are tested and approved to BS7950 recognised by 'Secured by Design'.

FS70 RANGE

- Distinctive sculptured shape.
- The traditional look of a timber window.
